Miscellaneous Information

1. Machine Learning Department events (like Orientation, working lunches for committees, etc.) often have free food. If you have a food allergy or other dietary restriction, let us know:
-

2. Machine Learning faculty occasionally seek to actively recruit research assistants or teaching assistants. If one of our faculty requests information from your application or your transcript for this purpose, do you want that information to be shared with them?

Yes No

3. The Machine Learning Department lists both current students and alumni. If you are okay with being listed on our website, please give the following:

- i. Your preferred professional name (e.g., "J.K. Simmons" vs. "Jonathan Simmons"):

- ii. Your undergraduate institution and degree (e.g., "University of Pittsburgh, B.Eng. in Computer Engineering"):

- iii. Your research interests (e.g., "Data Mining, Computer Vision, and Sports Applications"):

- iv. Are you okay with us posting good news about you (e.g., awards, employment, or graduation from our program)?

Yes No

- v. Please send Dorothy a photo of yourself. It should be at least 800x800 pixels, should be respectable enough for an employer to see, should focus on just you, and should ideally be lively and unique (e.g., outside in your hometown or on vacation, at your favorite study spot, or with your pet bird on your shoulder). This can be sent later, if necessary.

4. Our Master's Admissions Committee contains both faculty and students and does its work mainly over winter break. Members are still able to travel but would need to have internet access and put in a significant amount of work. Would you be interested in serving on the Admissions Committee next year? (Note: This is **not** a commitment; it is just to help us estimate how many people would be interested in serving.)

Yes No

To update this information at any time, simply email Dorothy Holland-Minkley with your changes.
